COVID-19: Construction Suspended Due to Shelter in Place, Stay at Home Orders

Our most important priority is the health and safety of our employees, partners, and clients. With the mandatory Shelter in Place Orders issued by Bay Area county officials earlier this week and the Stay at Home Order issued yesterday by the Governor of California in response to the COVID-19 pandemic, all construction on BCCI projects in Northern and Southern California, considered non-essential services, has been suspended.

While our offices are closed, our employees are working from home to the extent possible.

We are closely monitoring the situation with local, state, and federal officials to determine when construction sites can resume normal operations.

Be well and stay safe.

BCCI
